

Ki – ALTHAMMER MANHOLE COVER

Ki – Althammer Manhole Covers are Tank openings for demanding applications and limited space conditions on the front side, because the cover opens inward.

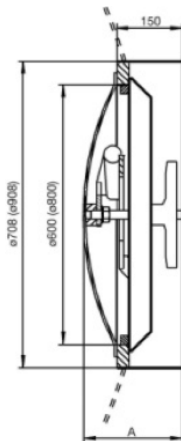

CONSTRUCTION

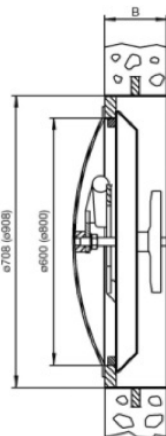

DN 600 / DN 800 for tanks and vessels
Material grade: TP 316 Ti
for opening gauge pressure 3.5 bar and 6.0 bar

	DN 600	DN 800
3,5 bar A	210	250
6,0 bar A	240	270

for steel tanks

for concrete tanks

- Installation in arched and flat surfaces possible
- Cover opens towards the inside
- Firm and accurate attachment for exact Closing
- Parts in contact with fluid: Material grade TP 316 Ti
- For outside parts: Material grade TP 304/TP 321
- Gasket NBR for temperature up to 100°C
- Gasket FPM/ERDM for temperature up to 150°C
- Manhole covers for vacuum operation with opening towards the outside on request

WEIGHTS

	DN 600	DN 800
3,5 bar A	approx. 60 kg	approx. 76 kg
6,0 bar A	approx. 67 kg	approx. 92 kg

ORDERING EXAMPLE

Ki – Althammer Manhole Cover DN 600 for 6,0 bar operating gauge pressure and operating temperature 100°C for installation in steel tanks.

In case of an order state measure B. (for concrete tanks only).
